We welcome new members to the Clean Burn family, here are a few!

Bob Bell Automotive Group is having Eco Heating Systems install a CB3250 and CB5000 in their Nissan dealership in Baltimore, MD.

Alban Caterpillar in Myersville, MD is having Eco Heating install five furnaces in January.

JM Dorsey in Westminster had Eco Heating install a CB1750.

Kinzie, Inc. in Poolesville, MD had Eco Heating install a Saturn 140.

WELCOME!!!

Strange News:

We heard a radio commentator say that many parts of the US were colder than Mars for a few days when we were in the midst of the cold snap. Have *you* ever heard of this before???

* Offers not valid on Saturn furnaces. Offers only valid on furnaces installed by Eco Heating Systems.
Offer expires vary. Please contact office for details.

Company Initiates Zero-Pay and Charge-for-Oil Policy to Reflect

Current Market Dynamics

Dec 18, 2014 (BUSINESS WIRE) -- Clean Harbors, Inc., provider of environmental, energy and industrial services throughout North America, announced that its Safety-Kleen subsidiary is revising its rate structure for its purchase of used engine and industrial oils. **Effective immediately, Safety-Kleen is eliminating its current pay-for-oil (PFO) program and replacing it with either a Zero-Pay or Charge-for-Oil rate structure.**

Jerry Correll, Safety-Kleen President, said, "Given the adverse conditions in the base oil marketplace and current energy market dynamics, we are taking proactive action to further reduce costs associated with the procurement, transportation and processing of used oil. Our new Zero-Pay and Charge-for-Oil policy will apply to all U.S. and Canadian used oil generators that Safety-Kleen services. As the largest collector of used oil in North America at more than 200 million gallons annually, Safety-Kleen is taking a leadership approach to the market and realigning our pricing structure to levels that more accurately reflect the current environment."

"Margins in Clean Harbors' Oil Re-refining and Recycling segment have come under substantial pressure since early 2013," Correll said. "Our goal is to protect and expand our margins, and ultimately return profitability in this segment to more historical levels. The actions we are announcing today are necessary to achieve those goals."
